AN ORDINANCE relating to taxicab, transportation network company, and for-hire vehicle drivers; amending Section 6.310.110 of the Seattle Municipal Code; adding a new Section 6.310.735 to the Seattle Municipal Code; and authorizing the election of driver representatives.

..body

WHEREAS, the state of Washington, in Revised Code of Washington 46.72.001 and 81.72.200, has authorized political subdivisions of the state to regulate for-hire drivers and for-hire transportation services without facing liability under federal antitrust laws; and

WHEREAS, driving taxis, for-hire, and TNC-endorsed vehicles can be a viable path to steady, reliable, and regular work for historically disadvantaged communities, including new immigrants to the United States; and

WHEREAS, allowing taxicab, transportation network company, and for-hire vehicle drivers (“for-hire drivers”) to modify specific agreements collectively with the entities that hire, direct, arrange, or manage their work will better ensure that they can perform their services in a safe, reliable, stable, cost-effective, and economically viable manner and thereby promote the welfare of the people; and

WHEREAS, the new responsibilities for the Department of Finance and Administrative Services (FAS) contemplated in this legislation will require additional resources; and

WHEREAS, the Director of FAS has authority to adjust fees to cover the cost of the regulatory functions FAS performs on behalf of the public; and
WHEREAS, should this legislation go into effect, the Director may exercise that authority to raise additional revenue through fees to cover the additional costs; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Findings

A. In order to protect the public health, safety and welfare, the City of Seattle is granted express authority to regulate for-hire and taxicab transportation services pursuant to RCW Chapters 46.72 and 81.72. This authority includes regulating entry, requiring a license, controlling rates, establishing safety requirements, and any other requirement to ensure safe and reliable transportation services.

B. Seattle Municipal Code (SMC) Chapter 6.310 is an exercise of the City of Seattle's power to regulate the for-hire and taxicab transportation industry. The purpose of SMC Chapter 6.310, in subsection 6.310.100.A pertinent part states: “Some of its regulatory purposes are to increase the safety, reliability, cost-effectiveness, and the economic viability and stability of privately-operated for-hire vehicle and taxicab services within The City of Seattle.”

C. The purpose of this ordinance is to ensure safe and reliable for-hire and taxicab transportation service pursuant to RCW 46.72.160 and RCW 81.72.210, respectively, and to exercise the City’s authority to regulate for-hire transportation pursuant to RCW 46.726.001, which states: “The legislature finds and declares that privately operated for hire transportation service is a vital part of the transportation system within the state.
Consequently, the safety, reliability, and stability of privately operated for hire transportation services are matters of statewide importance. The regulation of privately operated for hire transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit political subdivisions of the state to regulate for hire transportation services without liability under federal antitrust laws.” RCW 81.72.200, governing taxicab transportation, has a similar statement of legislative intent.

-D.- As the City is acting under specific state statutory authority, it is immune from liability under antitrust laws.

E. At present, entities that hire, contract with, or partner with for-hire drivers for the purpose of assisting them with, or facilitating them in, providing for-hire transportation services to the public establish the terms and conditions of their contract with their drivers unilaterally, and may impose, including changes in driver compensation rates or deactivate drivers and deactivation from dispatch services without prior warning or discussion. Terms and conditions that are imposed without meaningful driver input, as well as sudden and/or unilateral contract changes, may adversely impact the ability of a for-hire driver to provide transportation services in a safe, reliable, stable, cost-effective, and economically viable manner.

F. Unilateral sudden changes in contract terms and working conditions established and unilaterally imposed without driver input by entities that hire, contract with, or partner with for-hire drivers, as well as sudden and/or unilateral changes in those terms and conditions, have resulted in driver unrest and transportation service disruptions around the country.

G. There is currently no effective mechanism for for-hire drivers to meaningfully directly address the terms and working conditions of their contractual relationship collectively with the
entity that hires, contracts with, or partners with them. For-hire drivers lack the power to negotiate these issues effectively on an individual basis.

H. Business models wherein companies control aspects of their drivers’ work, but rely on the drivers being classified as independent contractors, render for-hire drivers exempt from minimum labor requirements established by federal, state, and local law that the City of Seattle has deemed in the interest of public health and welfare, and undermine Seattle’s efforts to create opportunities for all workers in Seattle to earn a living wage.

I. Collective bargaining in other industries has achieved public health and safety outcomes for the general public including, but not limited to: job security provisions, scheduling predictability, job training, and methods of communicating health and safety information.

J. Establishing a process through which Leveling the bargaining power between for-hire drivers and the entities that control many aspects of their working conditions collectively negotiate the terms of the drivers’ contractual relationships with those entities will enable more stable working conditions and better ensure that drivers can perform their services in a safe, reliable, stable, cost-effective, and economically viable manner, and thereby promote the welfare of the people who rely on safe and reliable for-hire transportation to meet their transportation needs.

1. Drivers working under terms that they have negotiated through a collective negotiation process are more likely to remain in their positions over time, and to devote more time to their work as for-hire drivers, because the terms are more likely to be satisfactory and responsive to the drivers’ needs and concerns. Such drivers accumulate experience that will improve the safety and reliability of the for-hire transportation services provided by the driver
coordinator and reduce the safety and reliability problems created by frequent turnover in the for-
hire transportation services industry.

2. Establishing the drivers’ contractual terms through a collective negotiation process will also help ensure that the compensation drivers receive for their services is sufficient to alleviate undue financial pressure to provide transportation in an unsafe manner (such as by working longer hours than is safe, skipping needed breaks, or operating vehicles at unsafe speeds in order to maximize the number of trips completed) or to ignore maintenance necessary to the safe and reliable operation of their vehicles. Enabling driver participation in the formulation of vehicle equipment standards and safe driving practices will help ensure that those standards and practices are responsive to driver needs, including changing conditions, and that drivers will agree with and follow those standards and practices.

J. Collective negotiation processes in other industries have achieved public health and safety outcomes for the general public and improved the reliability and stability of the industries at issue including, but not limited to, job security provisions, scheduling predictability, job training, methods of communicating health and safety information and enforcing health and safety standards, processes for resolving disputes with minimal rancor or conflict, and reductions in industrial accidents, vehicular accidents, and inoperative or malfunctioning equipment. In other parts of the transportation industry, for example, collective negotiation processes have reduced accidents and improved driver and vehicle safety performance.
Section 2.- Section 6.310.110 of the Seattle Municipal Code, last amended by Ordinance 124524, is amended as follows:

2. The Director shall have the authority to gather and consider any necessary evidence in exercising the authority provided by this subsection 6.310.735.J.

3. A driver coordinator shall not make changes to subjects set forth in subsection 6.310.735.H or specified in rules or regulations promulgated by the Director without meeting and discussing those changes in good faith with the EDR, even if the driver coordinator and EDR have not included terms concerning such subjects in their agreement.

2. Once a petition has been accepted by the Director, the Director shall issue notice to the driver coordinator and the EDR of the decertification petition and promulgate a commencement date.

3. The driver coordinator shall have 14 days from the commencement date to transmit the list of qualifying drivers to the petitioners and the EDR.
